## NEED TROOPS TO OPPOSE BRITISH

Germans Take Reserves From  
Verdun Region.

FIGHTING HAS SLACKENED

Australians Are Still Battling Furiously to Retain Possession of Pozières Village, but Comparative Quiet Prevails on Rest of British Front.

London, July 25.—At Pozières the Australians are fighting furiously with the Germans for possession of the village and the head of the road leading from it to Bapaume. The greater part of the village now is reported to be in the Australians' hands.

There has been a diminution in the vicious fighting which began Saturday night along the British front from Thiepval to Guillemont.

A condition of comparative calm prevails south of the Somme along the French line where the only fighting reported—and that a minor engagement—resulted in the French capturing a German battery south of Estrees.

Eastward, in the Verdun region, the French have occupied a German redoubt west of Thiaumont, taking with it five machine guns and two score prisoners.

Berlin still asserts that the only result of the British attack Sunday along the Thiepval-Guillemont line was the penetration of a few houses in the village of Pozières and that the Australians obtained these only after having suffered sanguinary losses.

That German troops have been removed from the Verdun front for the Somme operations is apparent from the German statement that Brandenburg grenadiers "of Douaumont fame" defeated the British in the fight Sunday at Longueval.

Reports Lack Confirmation.

Although unofficial reports have credited to the Russians big gains against the Germans in the Riga region of Russia, neither the Petrograd nor British communications have as yet recorded any important changes in terrain there.

Petrograd claims the dislodgement of the Germans from the village of Galitshanie, on the Lipa river in Volhynia, while Berlin says that near the Galician border in southern Volhynia strong attacks by the Russians against the German line were repulsed.

Emperor William is reported to have left the French front to observe the operations in the East.

The Russians have made further progress against the Turks in the Erzincan region of Turkish Armenia, while to the south along the Persian front the Turks report that they have gained fresh successes over the Russians.

The Italians in the Astico and Avio region of the Austro-Italian theater report continued advances against the Austrians.

## SHOT UP MEXICAN HOMES

Serious Charges Made Against National Guardsmen.

El Paso, Tex., July 25.—General Francisco Gonzales, commandant at Juarez, formally protested to General George Bell, Jr., commanding the American forces here, against the conduct of the outpost guards of the Ninth Massachusetts infantry, who, he said, crossed into Mexican territory "in violation of Mexican rights" and shot up "without provocation a number of homes of Mexicans south of the border."

The protest was filed through Andres Garcia, the Mexican consul, who also suggested to General Bell that regular troops used to border conditions replace guardsmen, "who in the main are new to soldiery and to the country at the point where the shooting occurred."

Drowns as Friends Laugh.

St. Paul, S. D., July 25.—Compensations sought by Michael Gallagher when he cried for help while swimming in the Sioux river. Gallagher drowned while his friends looked on. His body was recovered.

## COUNT VON WEDEL.

Chairman of German Committee for an Honorable Peace.

Photo by American Press Association.

The German national committee for securing an honorable peace has drafted an address which will be published in a few days calling for support of Chancellor von Bethmann-Hollweg and the influencing of public opinion toward moderate peace aims. The signatures to the address indicate the importance of the movement. They include Count von Wedel, general adjutant to the emperor and head of the movement; Philip Heineken, director of the North German Lloyd; Paul von Schwaback, director of the Bleichroeder bank; Professor Adolph Harnack and many important manufacturers, merchants, professors and others. The address outlines the aims of the committee, steering a course between the pacifists and the pan-Germans.

## ASQUITH THREATENS APPEAL TO COUNTRY

London, July 25.—A significant remark was made in the house of commons by Premier Asquith, at the conclusion of a debate on a motion for adjournment made by John Redmond, the Nationalist leader, after an announcement by the premier that the government had no intention of introducing any home rule for Ireland bill, with regard to which there was no substantial agreement among all parties.

In appealing to the Nationalists not to throw away the opportunity for bringing home rule into immediate operation Mr. Asquith said:

"I ask the house, and will ask the country if necessary, if the government's proposals are not fair."

Just before the motion of Mr. Redmond was voted down Mr. Asquith directly addressed the Nationalists, denying that any partiality had been shown to either side during the negotiations.

## DESIRES AN EARLY REPLY

United States Prods France and Great Britain.

Washington, July 25.—Instructions to impress upon the British and French governments that the United States desires an early and complete reply to its last note regarding interference with neutral mails were cabled by the state department to Ambassador Page at London and Ambassador Sharp at Paris.

The step was taken after President Wilson and other officials had studied the British memorandum dealing with specific complaints and deferring until the future a reply to the American contentions regarding the principles involved.

Confirmed After Eight Months.

Washington, July 25.—After being held up since January, on objection of Senator Hitchcock, the nomination of Thomas H. Allen as United States attorney for Nebraska was confirmed by the senate. Allen is a brother-in-law of William J. Bryan.

Forest Fire Peril Decreases—Light Rains General—Jefferson Commission at Little Falls

Workmen are Trapped in Gas Tunnel Below Lake Surface

(By United Press)

Cleveland, July 25.—Ten bodies have been recovered, eight are known to be missing and there may be three more men missing and believed dead as the result of a sudden rush of natural gas in the Cleveland water works tunnel beneath lake Erie. 12 were taken out alive up to noon but it is thought some of these will not survive, all the dead but one being identified. It is now believed certain that none of those remaining in the tunnel are alive. Workmen hit a gas pocket while digging in the tunnel and the electrical machinery ignited the gas.

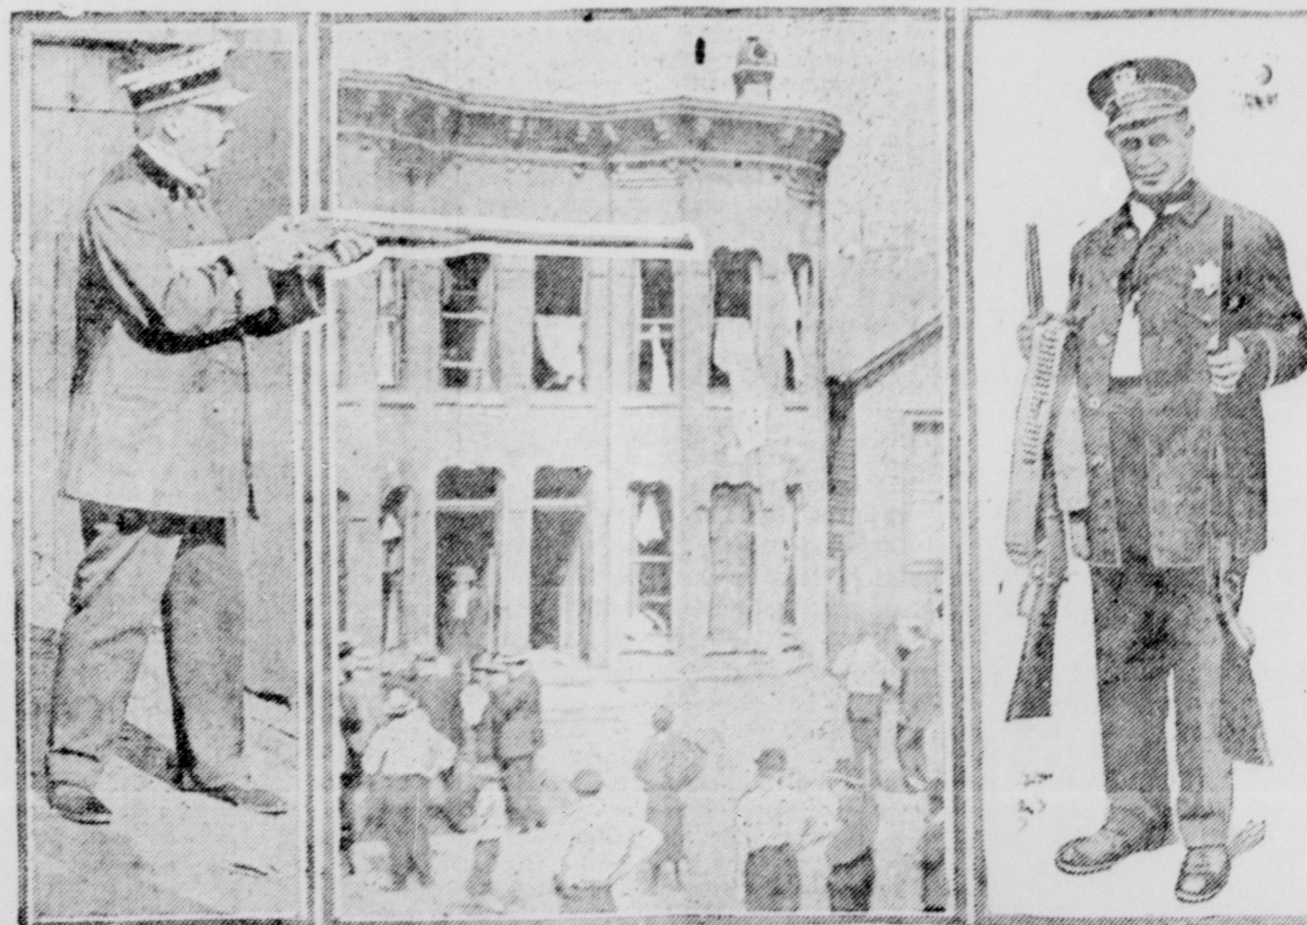

Cleveland, July 25.—At 9 a. m. this morning eight bodies were taken from the Cleveland Water Works tunnel, 120 feet below the surface of Lake Erie where 23 men were trapped by a natural gas explosion. They were imprisoned all night, fifteen men being first trapped and later eight men who went to their rescue were overcome. The place where the accident occurred in the tunnel is five miles off the shore. Supt. Van Dusen, of the works, was rescued alive early this morning and three others were brought to the surface alive at 10 a. m.

Bank Resources Show big Gains

(By United Press)

St. Paul, Minn., July 25.—Bank Supt. Turritt reports that the conditions of 994 state banks up to June 30 show increased resources over last year of more than \$26,000,000. The total resources are \$224,715,202, and the savings and other deposits have also increased during the same period.

## Views of Siege of Chicago Negro Maniac, Where Six Were Killed

Rifle used in seige

Henry McIntyre, a maniac Negro, and his wife were besieged in their home in the west side of Chicago, after the man had killed several per-

sons. Before the place was dynamited by the police they shot a patrolman, and wounded three other persons. In all they killed four.

Treaty for Purchase Danish West Indies

(By United Press)

Washington, July 25.—It is officially admitted at the white house that the treaty for the purchase of the Danish West Indies by the United States for \$25,000,000 will probably be signed today and submitted to the American senate and the Danish parliament for their approval. The islands are of tremendous strategic value to the United States, and of no value to Denmark, and their acquisition would eliminate the danger of any European power acquiring them and establish a naval base off the Panama canal.

## Fire Peril Past

(By United Press)

St. Paul, July 25.—The peril from forest fires has passed it is thought as no report has been heard at the capital today.

## Light Rains General

(By United Press)

St. Paul, July 25.—Light rains are general in the wheat belt but the rainfall is so light that it will have no effect on the rust situation the forecaster says.

Jefferson Highway Tourists on Way

(By United Press)

Minneapolis, July 25.—The Jefferson tourists left Minneapolis at 9:15 on the route to Little Falls where they will spend the night. Plans have been laid for a scenic highway in Northern Minnesota as outlined by the boosters of good roads in the sections covered by the so-called eastern and western routes, who lost out in the selection of the Jefferson route.

## Condition of Wheat

(By United Press)

Winnipeg, July 25.—Minister of Agriculture Winkler has toured the province and says the condition of wheat is not very good in southern Manitoba but in the northern portion is fine.

Minnesota Guards Home in Few Days

(By United Press)

Llano Grande, Texas, July 25.—The Minnesota guardsmen who have applied for a discharge on the ground of having dependent wives and mothers will be sent home within a few days to the number of 200. They expect to start north next week, but will not be released in a group but will be released a few at a time and transportation will be furnished to the place of enlistment. The men of Battery E who were injured in the Bay City wreck arrived today, lame and sore but able to walk. The health authorities are investigating the 80 cases of ptomaine poisoning in the Third Minnesota regiment.

Submarine Bremen to Dock at Boston

(By United Press)

Baltimore, July 25.—The submarine Bremen is to dock at Boston instead of Baltimore it is reliably reported here this afternoon, as she has had orders not to risk the running of cordon of British off the Capes. The Deutschland's time of departure will probably be determined at a conference between her promoters and Ambassador Bernstorff tomorrow night.

## GREATEST ARTILLERY DUEL

(By United Press)

London, July 25.—The greatest artillery duel has been going on along the five mile front from Thiepval to Longueval, there being few infantry engagements but in the village of Pozières where both British and Germans occupy the town desperate hand to hand fighting took place. Gen. Haig's statement today says "The greater part of Pozières is now ours and nowhere have the Germans reached the British trenches."

## CAPTURED BY RUSSIANS

South Bethlehem, Pa., July 25.—Charles M. Schwab placed an order for five ocean ore carrying vessels with his new subsidiary concern, the Maryland Shipbuilding plant. These vessels will be used in the transportation of the iron ore from the steel company's large properties in both Chile and Cuba.

They will fly the American flag and will be operated by the Ore Steamship corporation, a subsidiary of the Bethlehem Steel company.

## Soldiers to Vote

(By United Press)

San Antonio, Tex., July 25.—Only 98 more shooting days before election.

The smell of the Texas election day fight got into the blood of militiamen. One hundred thousand militiamen votes are itching to be cast. If this was Nov. 7 and the election depended on those 100,000 votes our next president might be an anarchist.

Every army man admits that there would have been a holocaust of lives if our militia had gone into Mexico straight from their office and shop life. They have hard enough time now keeping up under the heat. Fifty-seven militiamen of one Wisconsin company have been down and out during the past two weeks and other regiments have records equally as bad. But militiamen generally believe the administration is to blame for keeping them out of war.

It dawned upon guardsmen for the first time today that if they are still on the border Nov. 7 they probably will be unable to vote unless congress passes a special law.

In the blazing hot sun and sand one can find many anti Wilson men. If Wilson calls them home before the election the workings of other principle common among other nations—that one way to save a nation from anarchy is to prevent soldiers from voting—will in all probability apply to them. Soldiers in no armies in Europe are permitted to vote. All elections have been stopped in fact.

## FRENCH MAKE FURTHER ADVANCE

(By United Press)

Paris, July 25.—The Communique reports that the French have made further advance, taking the strongly fortified block house south of Estrees, ejecting the Germans from the trenches they occupied and that nearby counter attacks by the Germans elsewhere were repulsed.

## CAPTURE MOUNTAIN PEAK

Rome, July 25.—Mount Cimmone, the loftiest peak of the Northern Apennines 7,000 feet high, just below the Austrian border, was captured by the Italians in a terrific assault.

## FRENCH GAIN GROUND

Berlin, July 25.—The French assaults at South Estrees temporarily gained ground, the statement admits, and also says that the Russians penetrated the German first line south of Berestecko.

## SENATE OBJECTS TO REDUCTIONS

Calls Halt on Cutting Army Appropriations.

CHAMBERLAIN IS AROUSED

Military Committee Chairman Arraigns Senators Who Intimate Preparedness Advocates Are in a Conspiracy With Munition Makers.

Washington, July 25.—The senate called a halt on wholesale reduction begun Saturday in the army appropriation bill, voting down retrenchment proposals and approving increases totaling more than \$30,000,000 when sections were reached carrying provision for ordnance and equipment for the regular army and national guard.

Debate on the ordnance sections developed a predominating sentiment that it would be unwise to limit expenditures for ammunition and guns too closely despite the lessening of tension in the Mexican situation.

Decreases of \$36,000,000 ordered Saturday related to transportation, subsistence, foreign service pay and emergency estimate put into the bill by the house when the Mexican situation was critical.

The increases included: For medical supplies, increase from \$2,900,000 to \$4,500,000; engineers' equipment, \$1,000,000 to \$1,770,000; ordnance stores, \$6,000,000 to \$11,000,000; automatic machine guns for regular army, \$3,500,000 to \$7,250,000; automatic machine guns, for national guard, \$2,000,000 to \$6,586,150; armored motor cars, \$300,000 to \$1,000,000; field artillery for national guard, \$8,000,000 to \$14,200,000.

Several important items remain for consideration, including the \$13,281,466 proposed for aviation, an increase of \$10,000,000 over the house appropriation.

In the debate Chairman Chamberlain of the military committee, aroused by anti-preparedness arguments by Senator Norris, vehemently arraigned senators who, he declared, constantly intimated that advocates of preparedness were in a conspiracy with munition makers and others who profit by war.

He defended the patriotism and honesty of the champions of preparedness in congress.

Senator Townsend assailed the administration Mexican policy, asserting that the national guard had been called to the border under "false pretenses" and that diplomatic correspondence had disclosed that there never was any intention of sending state troops into Mexico.

## THOUSANDS FILE PAST HOOSIER POET'S BIER

Indianapolis, July 25.—Fifty thousand men, women and children admirers of the works of James Whitcomb Riley, the Hoosier poet, passed before the casket in which his body lay in state in the capitol.

The crowds had assembled long before the doors of the state house opened. The casket was covered with three floral designs. They were the state and city emblems and one from a friend.

Grey Requests Lower Title.

London, July 25.—For "personal and family reasons" Sir Edward Grey, the British foreign secretary, who recently was created an earl, has received the royal permission to take the title of viscount instead of earl, under the style Viscount Grey of Fallodon.

## DISCUSS CHILD LABOR LAWS

President and Several Members of Congress Go Over Situation.

Washington, July 25.—Child labor legislation which President Wilson desires enacted at this session of congress was discussed by him with Senator Simmons, Senator Hoke Smith and other members of congress.

His callers left with the impression that he would leave the matter to the senate Democratic caucus.

## TWO KILLED BY LADDER

Eight Other Workmen Injured at Minneapolis.

Minneapolis, July 25.—Two men were killed and eight injured when a 75-foot ladder loaded with descending concrete workers buckled and broke in two at the Soo Line terminal elevator in course of construction at Henn and Forty-ninth avenues north.

Peter Johnson was killed outright and J. Smith died en route to the city hospital.

## NEED TROOPS TO OPPOSE BRITISH

Germans Take Reserves From  
Verdun Region.

FIGHTING HAS SLACKENED

Australians Are Still Battling Furiously  
to Retain Possession of Pozieres  
Village, but Comparative Quiet Pre-  
vails on Rest of British Front.

London, July 25.—At Pozieres the  
Australians are fighting furiously with  
the Germans for possession of the vil-  
lage and the head of the road leading  
from it to Bapaume. The greater part  
of the village now is reported to be in  
the Australians' hands.

There has been a diminution in the  
violent fighting which began Saturday  
night along the British front from  
Thiepval to Guillemont.

A condition of comparative calm  
prevails south of the Somme along  
the French line where the only fight-  
ing reported—and that a minor en-  
gagement—resulted in the French cap-  
turing a German battery south of Es-  
trees.

Eastward, in the Verdun region, the  
French have occupied a German re-  
doubt west of Thiamont, taking with  
it five machine guns and two score  
prisoners.

Berlin still asserts that the only re-  
sult of the British attack Sunday  
along the Thiepval-Guillemont line was  
the penetration of a few houses in the  
village of Pozieres and that the Aus-  
tralians obtained these only after hav-  
ing suffered sanguinary losses.

That German troops have been re-  
moved from the Verdun front for the  
Somme operations is apparent from the  
German statement that Brandenburg  
grenadiers "of Douaumont fame" de-  
feated the British in the fight Sunday  
at Longueval.

Reports Lack Confirmation.

Although unofficial reports have  
credited to the Russians big gains  
against the Germans in the Riga re-  
gion of Russia neither the Petrograd  
nor British communications have as  
yet recorded any important changes  
in terrain there.

Petrograd claims the dislodgement  
of the Germans from the village of  
Galitchanie, on the Luga river in Vol-  
hynia, while Berlin says that near the  
Galician border in southern Volhynia  
strong attacks by the Russians against  
the German line were repulsed.

Emperor William is reported to have  
left the French front to observe the  
operations in the East.

The Russians have made further  
progress against the Turks in the  
Erzingan region of Turkish Armenia,  
while to the south along the Persian  
front the Turks report that they have  
gained fresh successes over the Rus-  
sians.

The Italians in the Astico and Avizo  
region of the Austro-Italian theater re-  
port continued advances against the  
Austrians.

shot up "without provocation a num-

The protest was filed through An-

The German national committee for  
securing an honorable peace has drafted  
an address which will be published in  
a few days calling for support of  
Chancellor von Bethmann-Hollweg and  
the influencing of public opinion to-  
ward moderate peace aims. The sig-  
natures to the address indicate the im-  
portance of the movement. They in-  
clude Count von Wedel, general ad-  
jutant to the emperor and head of the  
movement; Philip Heineken, director  
of the North German Lloyd; Paul von  
Schwabach, director of the Bleichroder  
bank; Professor Adolph Harnack and  
many important manufacturers, mer-  
chants, professors and others. The  
address outlines the aims of the com-  
mittee, steering a course between the  
pacifists and the pan-Germans.

## ASQUITH THREATENS APPEAL TO COUNTRY

London, July 25.—A significant re-  
mark was made in the house of com-  
mons by Premier Asquith, at the con-  
clusion of a debate on a motion for  
adjournment made by John Redmond,  
the Nationalist leader, after an an-  
nouncement by the premier that the  
government had no intention of intro-  
ducing any home rule for Ireland bill,  
with regard to which there was no  
substantial agreement among all par-  
ties.

In appealing to the Nationalists not  
to throw away the opportunity for  
bringing home rule into immediate  
operation Mr. Asquith said:

"I ask the house, and will ask the  
country if necessary, if the govern-  
ment's proposals are not fair."

Just before the motion of Mr. Red-  
mond was voted down Mr. Asquith di-  
rectly addressed the Nationalists, de-  
nying that any partiality had been  
shown to either side during the nego-  
tiations.

## Soldiers to Vote

(By United Press)

San Antonio, Tex., July 25.—Only  
98 more shooting days before elec-  
tion.

The smell of the Texas election day  
fight got into the blood of militiamen.  
One hundred thousand militiamen  
votes are itching to be cast. If this  
was Nov. 7 and the election depend-  
ed on those 100,000 votes our next  
president might be an anarchist.  
Every army man admits that there  
would have been a holocaust of lives  
if our militia had gone into Mexico  
straight from their office and shop  
life. They have had enough time  
now keeping up under the heat. Fifty-  
seven militiamen of one Wisconsin  
company have been down and out  
during the past two weeks and other  
regiments have records equally as  
bad. But militiamen generally be-  
lieve the administration is to blame  
for keeping them out of war.

It dawned upon guardsmen for the  
first time today that if they are still  
on the border Nov. 7 they probably  
will be unable to vote unless congress  
passes a special law.

In the blazing hot sun and sand  
one can find many anti Wilson men.  
If Wilson calls them home before the  
election the workings of other prin-  
ciple common among other nations  
—that one way to save a nation from  
anarchism is to prevent soldiers from  
voting—will in all probability apply  
to them. Soldiers in no armies in  
Europe are permitted to vote. All  
elections have been stopped in fact.

## FRENCH MAKE FURTHER ADVANCE

(By United Press)

Paris, July 25.—The Com-  
munique reports that the French  
have made further advance, tak-  
ing the strongly fortified block  
house south of Estrees, ejecting  
the Germans from the trenches  
they occupied and that nearby  
counter attacks by the Germans  
elsewhere were repulsed.

## CAPTURE MOUNTAIN PEAK

Rome, July 25.—Mount Cimone,  
the loftiest peak of the Northern  
Apennines 7,000 feet high, just  
below the Austrian border, was  
captured by the Italians in a ter-  
rific assault.

## FRENCH GAIN GROUND

Berlin, July 25.—The French as-  
saults at South Estrees temporarily  
gained ground, the statement ad-  
mits, and also says that the Rus-  
sians penetrated the German first  
line south of Berestecko.

## SENATE OBJECTS TO REDUCTIONS

Calls Halt on Cutting Army  
Appropriations.

CHAMBERLAIN IS AROUSED

Military Committee Chairman Ar-  
raigns Senators Who Intimate Pre-  
paredness Advocates Are in a Con-  
spiracy With Munition Makers.

Washington, July 25.—The senate  
called a halt on wholesale reduction  
begun Saturday in the army appro-  
priation bill, voting down retrench-  
ment proposals and approving in-  
creases totalling more than \$30,000,000  
when sections were reached carrying  
provision for ordnance and equipment  
for the regular army and national  
guard.

Debate on the ordnance sections de-  
veloped a predominating sentiment  
that it would be unwise to limit ex-  
penditures for ammunition and guns  
too closely despite the lessening of  
tension in the Mexican situation.

Decreases of \$36,000,000 ordered Sat-  
urday related to transportation, sub-  
sistence, foreign service pay and emer-  
gency estimate put into the bill by  
the house when the Mexican situation  
was critical.

Decreases included:  
Transportation supplies, increase from  
\$2,000,000 to \$4,500,000; engineers'  
equipment, \$1,000,000 to \$1,770,000;  
ordnance stores, \$6,000,000 to \$11,-  
000,000; automatic machine guns for  
regular army, \$3,600,000 to \$7,725,000;  
automatic machine guns, for national  
guard, \$2,000,000 to \$6,586,150; arm-  
ored motor cars, \$300,000 to \$1,000,000;  
field artillery for national guard, \$8,-  
000,000 to \$14,200,000.

Several important items remain for  
consideration, including the \$13,281,-  
666 proposed for aviation, an increase  
of \$10,000,000 over the house appro-  
priation.

In the debate Chairman Chamber-  
lain of the military committee, aroused  
by anti-preparedness arguments by  
Senator Norris, vehemently arraigned  
senators who, he declared, constantly  
intimated that advocates of prepared-  
ness were in a conspiracy with munition  
makers and others who profit by war.

He defended the patriotism and hon-  
esty of the champions of preparedness  
in congress.

Senator Townsend assailed the ad-  
ministration Mexican policy, asserting  
that the national guard had been called  
to the border under "false pre-  
tenses" and that diplomatic corre-  
spondence had disclosed that there  
never was any intention of sending  
state troops into Mexico.

## THOUSANDS FILE PAST HOOSIER POET'S BIER

Indianapolis, July 25.—Fifty thou-  
sand men, women and children admir-  
ers of the works of James Whitcomb  
Riley, the Hoosier poet, passed before  
the casket in which his body lay in  
state in the capitol.

The crowds had assembled long be-  
fore the doors of the state house open-  
ed.

The casket was covered with three  
floral designs. They were the state  
and city emblems and one from a  
friend.

Grey Requests Lower Title.

London, July 25.—For "personal and  
family reasons" Sir Edward Grey, the  
British foreign secretary, who recently  
was created an earl, has received the  
royal permission to take the title of  
viscount instead of earl, under the  
style Viscount Grey of Fallodon.

## DISCUSS CHILD LABOR LAWS

President and Several Members of  
Congress Go Over Situation.

Washington, July 25.—Child labor  
legislation which President Wilson de-  
sires enacted at this session of con-  
gress was discussed by him with Sen-  
ator Simmons, Senator Hoke Smith  
and other members of congress.

The leaders left with the impression  
that they would leave the matter to the  
senate for legislative action.

## TWO KILLED BY LADDER

Eight Other Workmen Injured at  
Minneapolis.

Minneapolis, July 25.—Two men  
were killed and eight injured when a  
75-foot ladder loaded with descending  
concrete workers buckled and broke  
in two at the Soo Line terminal eleva-  
tor in course of construction at Penn  
and Forty-ninth avenues north.

Peter Johnson was killed outright  
and J. Smith died en route to the city  
hospital.

**LITTLE FALLS STORY**  
Brainerd Beaten Fourth Time in Lit-  
tle Falls by Score of 10 to 2.  
Gourd Pitching  
(Little Falls Transcript)

Little Falls won its fourth straight  
victory of the season from Brainerd  
Sunday by a score of 10 to 2 in a  
game featured by the hitting of the  
Little Falls players. The Brainerd  
team played rather loose ball all  
through the game and toward the  
finish Little Falls also slowed up and  
Brainerd managed to squeeze across  
two runs.

Gourd held them helpless as usual,  
although they got more hits than in  
any other game this year. He allowed  
seven bingles. Little Falls got  
seven off Noel and eight off Bowman.  
Gourd fanned eight and walked his  
first man in three games, Noel draw-  
ing a pass in the third inning. Gourd  
also hit two batters and Bowman hit  
two. Noel and Bowman each walked  
only one man.

Longley had a big day with the  
stick, getting four hits out of four  
times at bat. Purch also hit 1,000,  
with a three-bagger, a two-bagger, a  
single and two sacrifices in five trips.  
Jimmy Williams figures in the "at  
bat" column but twice. He got hit  
once, walked once, got a sacrifice fly  
and one hit, a two-bagger that sailed  
clear into the farthest corner of the  
lot. Tanner got three hits out of five  
times up. Seven Brainerd errors  
helped Little Falls to their 10 scores.  
In one inning Gourd, Longley and  
Briere got scratch hits on pop flies,  
all of which should have been caught.

The Little Falls team has disbanded  
for the season, but may be gathered  
together again next month for a  
game with the All-Nations, Donald-  
son's team. Manager Berkin thinks  
he can get the players together for  
one game. At present there are no  
teams to play and no funds in the  
treasury with which to play them if  
there were.

The score by innings:  
Little Falls.....913 202 20x—runs 10  
Brainerd.....000 000 011—runs 2

**NEW LITERATURE**  
Booklets of Northern Pacific Railway  
Describe the Pacific  
Northwest

Several of the Northern Pacific  
railway's latest booklets describing  
trips to the Pacific Northwest have  
just been received here. They in-  
clude late photographs of Yellow-  
stone park, leading to Gardiner, as  
well as to other scenic places along  
that line.

More attention is paid in this lit-  
erature to the Puget Sound country  
and Alaska than heretofore. Color  
illustrations and accurate analysis  
of the region known as the "Land of  
Fortune" gives the latest efforts of  
the railway company a dignity and  
effect that will no doubt cause in-  
creased travel and immigration to  
the Northwest during 1916.  
Other literature will soon be is-  
sued by the Northern Pacific calling  
attention to the unduplicated scenic  
wonders of the Yellowstone, Rainier  
and other of Uncle Sam's national  
parks along that line.

**CARNIVAL COMMENTS**

Deerwood sent a large delegation  
to the carnival Monday. Traveling  
in two autos were Mr. and Mrs. A.  
W. Miller, Mr. and Mrs. Donald  
Quinlivan, James Quinlivan, the  
Misses Helga, Ester and Ellen  
Theerin.

The M & I brought down many  
from the north country to see the  
carnival.

Commented on by everyone is the  
decided neatness and cleanliness of  
the shows, everything is polished  
and spick and span like a battleship  
of Uncle Sam's fleet.  
"The Whip" drew a crowd, the  
machine being something new for  
Brainerd. Fellows took their girls  
in the tub-like cars and had the  
chance of playing the protecting hero  
when the car swings the corners at  
a dizzy pace. A girl naturally grabs  
her beau and in the excitement  
gives him a genuine hug, entirely  
unsolicited on his part. The ma-  
chine was thoroughly tested when  
A. G. Trommald and the Dispatch  
reporter filled a chariot and made  
the round trip without mishap or  
dizziness.

Monday night was "rubber" night,  
but the shows report good business  
just the same.

**"SPEAR HEAD" SUPREME IN QUALITY**

No Better Tobacco Grown Than  
the Famous Red Burley  
Spear Head Is Made Of

The cream of the red Burley  
crop, of which Spear Head plug  
is made, has a flavor like ripe, lus-  
cious, spicy fruit.

This delightful flavor is stored  
up in the juice of the leaf, and  
the Spear Head process saves  
every drop of this sweet, tasty  
juice, and presses it evenly  
through the plug.

A good plug chew is the top-  
notch of tobacco enjoyment. And  
a chew of Spear Head plug gives  
you the full benefit of all the  
wholesome, appetizing quality of  
the best tobacco that grows.

**LITTLE FALLS STORY**  
Brainerd Beaten Fourth Time in Little Falls by Score of 10 to 2,  
Gourd Pitching  
(Little Falls Transcript)  
Little Falls won its fourth straight victory of the season from Brainerd Sunday by a score of 10 to 2 in a game featured by the hitting of the Little Falls players. The Brainerd team played rather loose ball all through the game and toward the finish Little Falls also slowed up and Brainerd managed to squeeze across two runs.

Gourd held them helpless as usual, although they got more hits than in any other game this year. He allowed seven bingles. Little Falls got seven off Noel and eight off Bowman. Gourd fanned eight and walked his first man in three games. Noel drawing a pass in the third inning. Gourd also hit two batters and Bowman hit two. Noel and Bowman each walked only one man.

Longley had a big day with the stick, getting four hits out of four times at bat. Purch also hit 1,000, with a three-bagger, a two-bagger, a single and two sacrifices in five trips. Jimmy Williams figures in the "at bat" column but twice. He got hit once, walked once, got a sacrifice fly and one hit, a two-bagger that sailed clear into the farthest corner of the lot. Tanner got three hits out of five times up. Seven Brainerd errors helped Little Falls to their 10 scores. In one inning Gourd, Longley and Briere got scratch hits on pop flies, all of which should have been caught.

The Little Falls team has disbanded for the season, but may be gathered together again next month for a game with the All-Nations, Donaldson's team. Manager Berkin thinks he can get the players together for one game. At present there are no teams to play and no funds in the treasury with which to play them if there were.

The score by innings:  
Little Falls ... 013 202 26x—runs 10  
Brainerd .....000 000 011—runs 2

**NEW LITERATURE**  
Booklets of Northern Pacific Railway Describe the Pacific Northwest  
Several of the Northern Pacific railway's latest booklets describing trips to the Pacific Northwest have just been received here. They include late photographs of Yellowstone park, leading to Gardiner, as well as to other scenic places along that line.

More attention is paid in this literature to the Puget Sound country and Alaska than heretofore. Color illustrations and accurate analysis of the region known as the "Land of Fortune" gives the latest efforts of the railway company a dignity and effect that will no doubt cause increased travel and immigration to the Northwest during 1916.

Other literature will soon be issued by the Northern Pacific calling attention to the unduplicated scenic wonders of the Yellowstone, Rainier and other of Uncle Sam's national parks along that line.

**CARNIVAL COMMENTS**  
Deerwood sent a large delegation to the carnival Monday. Traveling in two autos were Mr. and Mrs. A. W. Miller, Mr. and Mrs. Donald Quinlivan, James Quinlivan, the Misses Helga, Ester and Ellen Theoria.

The M & I brought down many from the north country to see the carnival.

Commented on by everyone is the decided neatness and cleanliness of the shows, everything is polished and spick and span like a battleship of Uncle Sam's fleet.

"The Whip" drew a crowd, the machine being something new for Brainerd. Fellows took their girls in the tub-like cars and had the chance of playing the protecting hero when the car swings the corners at a dizzy pace. A girl naturally grabs her bean and in the excitement gives him a genuine hug, entirely unsolicited on his part. The machine was thoroughly tested when A. G. Trommald and the Dispatch reporter filled a chariot and made the round trip without mishap or dizziness.

Monday night was "rubber" night, but the shows report good business just the same.

## SCENIC HIGHWAY ASS'N IS FORMED

General Manager of the Jefferson Highway Decides in Favor of the Central Route

### THE SCENIC ROUTE IS IGNORED

A Meeting of Northern Minnesota Boosters will be Held at Detroit August 4 for Action

Following the decision of the General Manager of the Jefferson Highway yesterday at the St. Paul, projecting the road over what is known as the Central route, comes word that the boosters for the Eastern and Western routes have not been idle in the interim. Instead they have been much alive and through C. E. Hansing, secretary of the Brainerd Chamber of Commerce, comes word that an organization was formed immediately following the meeting of the Jefferson Highway, which has for its object the promotion and advertisement of the two routes which already have been widely advertised but were not considered in the decision rendered.

At a meeting of representatives of the two routes held at the invitation of several Northern Minnesota boosters, an organization was formed to be known as the Northern Minnesota Scenic Highway Association. The officers and a board of directors consisting of seven leading state senators and representatives. The officers chosen are as follows:

J. K. West, president, Detroit.  
Chas. Loring, Crookston, vice president.

L. S. Kent, Alexandria, treasurer.  
C. E. Hansing, Brainerd, secretary.  
Among the board of directors are Senator Baldwin of Frazee, Senator Nord of International Falls, Senator R. C. Dunn of Princeton and Senator P. H. McGarry of Walker. The meeting resulted in much enthusiasm being manifested while everyone present obligated himself to work for the two routes which takes in the many beautiful lakes known as a mecca for fishermen and hunters.

The proposed Jefferson Highway which was designated meets with little favor among Northern Minnesota boosters. When the route is studied and the country through which it passes given consideration, little can be said in its favor. First the route leaves St. Paul passing through Minneapolis to Anoka, Elk River, St. Cloud, Little Falls, to Staples and Wadena, paralleling the Northern Pacific railroad tracks, and in the entire distance so far traversed not one lake is to be seen, nor is there the semblance of scenic beauty or lake accommodations.

Leaving Wadena the route then follows the Great Northern tracks through to Park Rapids and not until one reaches Bemidji does there appear a lake of any proportions that would be at all inviting to a tourist who might have been told through folders or other advertising matter that Northern Minnesota offers to the tourist and vacationist a sportsmen's mecca in good fishing and hunting besides innumerable lakes where the finest of accommodations can be obtained. Passing on from Park Rapids one is taken to Bagley, Red Lake Falls thence north to St. Vincent into Winnipeg, through swamps and cut over lands.

The route selected has few

redeeming features and how any mistake of this magnitude could have been made seems incredible. According to advice which local boosters had received the Highway would be projected through the country offering the most to the tourist in the way of lakes, hotels, garage accommodations and in many other ways present to the traveler a list of attractions which Minnesota offers the world.

Neither the Western nor the Eastern routes which were bidding for the highway have any resentment nor does there appear any animosity toward that section awarded the road but since hearing the details of the proposition which must be entered into by the route selected, those in touch with the situation are patting themselves on the back that they were not wished into the deal. Instead it is thought the route projected by the Northern Minnesota Scenic Highway will become the nucleus for a highway which will be national in its scope while the State Highway Commission have gone on record favoring it being absolutely against anything but a split route. This point must be considered an important one by those behind the Jefferson Highway. State aid must be sought in the construction of the road.

This is much in the favor of the Central Highway and should the men behind the movement take steps for obtaining state aid, there can be but one answer. Northern Minnesota surely will receive its just reward and at a meeting of the Scenic Highway Association to be held at Detroit, August 4th one of the best attended and most enthusiastic meetings is looked forward to ever held in any section of the state with the same object in view. Letters are being sent to every town on the routes asking local boosters to turn out and make this the biggest movement of its kind ever started. Word comes already that every town will fall in line with a big delegation.

## OLD SETTLERS PICNIC AT OUTING

Annual Picnic to be Held Saturday, July 29—Many From Brainerd Will Attend Gathering

W. H. ANDREWS, PRESIDENT

Remer Band to Play, Ball Game Between Emily and Remer, Program of Sports, Etc.

The annual picnic of the old settlers will be held at Outing Saturday, July 29, and preparations are now under way. The presiding master of ceremonies will be W. H. Andrews.

There will be a program of sports, dancing, music by the Remer band, baseball game between Emily and Remer, Emily defeating Remer 16 to 10 last Sunday.

Every year a large crowd attends the festivities. All the county officers make the trip regularly. It is 40 miles by road and the roads are good after you leave Merrillfield. Big cars make it in two hours.

G. F. Rhodes, the Emily hotel-keeper, made it in two hours and a half in his Ford. Gasoline and a garage are at Emily so that car owners need have no fear.

## SPLENDID CROWD IN ATTENDANCE

C. A. Wortham Shows Do a Capacity Business on the First Night of the Carnival

### ENTERTAINING ATTRACTIONS

Mr. Wortham's Proud Boast That Ladies and Children Can Attend Without Male Escort

The C. A. Wortham show opened last night at the appointed time with a splendid crowd in attendance. In fact Mr. Wortham stated that with one exception that it was the biggest Monday night crowd that he has had this season. They came early and stayed late. It soon dawned upon them that at last a real carnival organization had come to town and they were not slow in showing their appreciation of this fact for they were more than liberal in their patronage of the different shows. Many were the advance promises for this show but even at this early date it will have to be admitted that they are in a fair way to keep every one of them. Decency first has always been the watch word with this show and the result is very apparent in every department for there is an absolute absence of those many things that were so offensive to the eye and ear. It is Mr. Wortham's proud boast that the ladies and the children can attend his shows without it being necessary for them to have a male escort. His carnival is one where pater familias can bring the entire family and not feel that he has brought them to the wrong place.

The big autodrome was the first to open their door to the public and it was a pleasure to listen to the straight forward gentlemanly talk made by Mr. Coughlan, the man in charge of this attraction. He not only talked for his own show but for them all and among the many things that he said was that if you were to stop on your way out and get your money back and he meant it for you could pass any one of the shows as the crowds was coming out and you would find the man in charge inquiring of the people if they were satisfied and if they had liked the show. This was the rule and there were no exceptions. Now while they use motorcycles as well as automobiles at this show it is not a Motordrome but an Autodrome, for the principal part of the show is given by Mlle. Marie, the girl who dares. Her part of the entertainment alone is well worth all the money that you can spend at this show.

My Lady's Fan was the next to open. This show is presented entirely by ladies and it is known as the art show or the show beautiful, and it is properly named for it is beautiful beyond description. Five beautiful lady models with the aid of electricity reproduce many of the world's greatest paintings. Many of them are also taken from the Bible. During the action of the show the ladies change costumes not less than 40 different times. Each one is an imported creation and each one costs a small fortune. It is owned and operated by Miss Etta Louise Blake and is the same show that she used all last winter in the leading theatres throughout the country.

The big trained wild animal show which is the feature of the carnival was, as expected, crowded and packed to the doors from the time they first opened their doors until the close. It needed no coaxing to get the good people to go here for the moment that you step in front of this show you know that you are at the right place at the right time and in you go.

Mr. Wilson, the man in charge of the Model City was giving away complimentary tickets for the first show to the ladies and when asked why he did this he replied that this was his way of placing his show before the public. He is satisfied in the belief that his attraction is so good that all he has to do is to get the crowd started on Monday night, then his business is assured for the week.

The big Wonderland shows were doing capacity business right from the start and it must be said that if you ever got your money's worth in your life you sure get it here.

Then you passed on to the show that is known as the Arabian Nights. The performers here are all from the Far East and it is here that you are confronted with all the splendor of the Orient. It is here that they feature the ten lady dancers from all nations. The stage settings of oriental tapestry are alone worth the price charged to see the show.

Then you pass on to the real novelty which is the Pike's Peak show. It is entirely new and is most unusual in the way of an attraction. First the front or entrance of the show is a reproduction of that far famed

mountain Pike's Peak. And on passing inside you are confronted by a western mining camp just as it used to look in the early days or in the days of '49. Nugget Nell operates a little novelty store while Widow Jones runs another and then there is the hotel operated by Alkali Ike, who also runs the dance hall. Here you find 22 ladies all decked out in western style and they are the entertainers.

The Panama Canal and the Submarine shows were going along nicely and it must be said that these are two of the best shows on the grounds and you will make the mistake of a lifetime if you don't avail yourself of the opportunity to see them.

The Athletic show was pleasing the crowds as was the Lady May show and the House That Jack Built was producing gales of laughter while at the Human Spider show you could always find a good crowd.

All shows open every afternoon at 2 o'clock and in the evening at 7:30. Band concerts on the streets twice daily, afternoon and evening.

### FUNERAL MONDAY

Mrs. Fanny Mulrine Laid to Rest in Evergreen Cemetery, Services Held in Morning

Funeral services over the remains of Mrs. Fanny Mulrine, of Meridian Park, St. Paul, held Monday morning in response to her wishes. Short verses were read from the Bible by Rev. G. P. Sheridan, officiating minister. The casket was covered with flowers, tributes of love from her many friends.

The pallbearers were former Senator Charles D. Johnson, F. A. Farrar, Judge W. A. Fleming of Brainerd and C. C. Kyle of St. Paul. The cortege made its way from the home of F. A. Farrar, where the services were held, to Evergreen cemetery and in its broad, verdant, restful acres she was laid to rest.

### BRAINERD'S OLDEST STORIES TODAY

\* The right kind of a mother-in-law is a haven of refuge.  
\* "Jimmie" Templeton awoke at midnight and heard an alarm down in the cellar. He woke his wife. It was burglars, sure enough. Jim gathered up wife and baby and they made a bee line to Mrs. John A. Cochran. After the excitement died down they returned home. Nothing was missing. The commotion the Templetons made had scared the burglars too and they had "beat it", dropping all their loot.

\* The carnival band under the direction of C. E. Jameson serenaded the Dispatch offices. They played rag time, classical and popular airs and the make up man just had to quit work as he couldn't control feet or hands when he heard the music.

\* After the carnival gets in swing, the concert band splits up in sections. One attraction falls heir to one cornet, one tuba and a bass drum. Its some orchestration when this aggregation plays a military march with lots of high tooting for the cornet and a bunch of after beats and snorts for the bass artillery. Awkward pauses are filled by the bass drum. An orchestra leader would tear his hair if he had to compose music for the trio. They get away by their own arrangements and put it over all right.

\* A real "war baby" has been unearthed in Brainerd. Ed Friedman, traveling man, won a baby doll at the carnival at an investment of 20c. He sold it later for \$3, net profit \$2.80.

It is simple because it gives you just what you want in a wall or ceiling, and it's so easy to apply. Beaver Board takes the place of lath, plaster and wallpaper. It makes a handsome, durable, sanitary wall which never chips or falls.

But there is a lot of difference between Beaver Board, the original, and the many so-called wallboards. So it will pay you to get the kind with the Beaver Board trade-mark on the back of every panel. That's the kind we sell.

Ask us about the Beaver Board Companies' Free Design and Decoration service. They will gladly help you plan your walls and ceilings.

### BOYS ARRESTED

Charged with Breaking Electric Globes at Lum Park on Monday Evening This Week

Special officers on duty at Lum park Monday night arrested two boys Earl Ralston and Roy Ralston, charged with breaking globes at the pavilion. A determined effort is to be made to put a stop to vandalism at the park.

The two badgers were taken sick and one died within half an hour of the other. "Teddy," the little bear, is off his feed too and very sick. An investigation is to be made to ascertain if an effort had been made to do away with the nucleus of the menagerie.

### MIXED TRAIN CHANGES

Now Leaves Brainerd at 9 in the Morning, Instead of at 6:30, "Merry Widow" Train

The schedule on the mixed train has been changed. It now leaves Brainerd at 9 o'clock in the morning, instead of at 6:30 as formerly, going to Ironton and thence to Aitkin, arriving at Aitkin about 3 in the afternoon.

On the return trip the train will leave Aitkin at 4 in the afternoon, arriving in Brainerd about 7 p. m.

### STORY OF FRIENDS

Claim Steve Perlinger Was Taken With Cramps While Swimming, Often Bathed Evenings

Friends of Steve Perlinger are positive he did not commit suicide. They admit Perlinger was to testify in some liquor case, but the parties concerned were no relation whatever of Perlinger. He was not worried about the case.

He had a habit of going bathing in the evening when his day's work was done, often being out quite late. He did not borrow a boat from a farmer. He put his clothing in the boat, went in bathing and is believed to have been taken with the cramps. He was an excellent swimmer, a single man 24 years old.

### Should Sloan's Liniment Go Along?

Of course it should! For after a strenuous day when your muscles have been exercised to the limit an application of Sloan's Liniment will take the soreness and stiffness away and get you in fine shape for the morrow. You should also use it for a sudden attack of toothache, stiff neck, backache, stings, bites and the many accidents that are incidental to a vacation. "We would as soon leave our baggage as go on a vacation or camp out without Sloan's Liniment." Writes one vacationist: "We use it for everything from cramps to toothache." Put a bottle in your bag, be prepared and have no regrets. At all druggists. tts

## SCENIC HIGHWAY ASS'N IS FORMED

General Manager of the Jefferson Highway Decides in Favor of the Central Route

### THE SCENIC ROUTE IS IGNORED

A Meeting of Northern Minnesota Boosters will be Held at Detroit August 4 for Action

Following the decision of the General Manager of the Jefferson Highway yesterday at the St. Paul, projecting the road over what is known as the Central route, comes word that the boosters for the Eastern and Western routes have not been idle in the interim. Instead they have been much alive and through C. E. Hansing, secretary of the Brainerd Chamber of Commerce, comes word that an organization was formed immediately following the meeting of the Jefferson Highway, which has for its object the promotion and advertisement of the two routes which already have been widely advertised but were not considered in the decision rendered.

At a meeting of representatives of the two routes held at the invitation of several Northern Minnesota boosters, an organization was formed to be known as the Northern Minnesota Scenic Highway Association. Officers and a board of directors consisting of seven leading state senators and representatives. The officers chosen are as follows:

J. K. West, president, Detroit.

Chas. Loring, Crookston, vice president.

L. S. Kent, Alexandria, treasurer.

C. E. Hansing, Brainerd, secretary.

Among the board of directors are Senator Baldwin of Frazee, Senator Nord of International Falls, Senator R. C. Dunn of Princeton and Senator P. H. McGarry of Walker. The meeting resulted in much enthusiasm being manifested while everyone present obligated himself to work for the two routes which takes in the many beautiful lakes known as a mecca for fishermen and hunters.

The proposed Jefferson Highway which was designated meets with little favor among Northern Minnesota boosters. When the route is studied and the country through which it passes given consideration, little can be said in its favor. First the route leaves St. Paul passing through Minneapolis to Anoka, Elk River, St. Cloud, Little Falls, to Staples and Wadena, paralleling the Northern Pacific railroad tracks, and in the entire distance so far traversed not one lake is to be seen, nor is there the semblance of scenic beauty or lake accommodations.

Leaving Wadena the route then follows the Great Northern tracks through to Park Rapids and not until one reaches Bemidji does there appear a lake of any proportions that would be at all inviting to a tourist who might have been told through folders or other advertising matter that Northern Minnesota offers to the tourist and vacationist a sportsmen's mecca in good fishing and hunting besides innumerable lakes where the finest of accommodations can be obtained. Passing on from Park Rapids one is taken to Bagley, Red Lake Falls thence north to St. Vincent into Winnipeg, through swamps and cut over lands.

The route selected has few

redeeming features and how any mistake of this magnitude could have been made seems incredible. According to advice which local boosters had received the Highway would be projected through the country offering the most to the tourist in the way of lakes, hotels, garage accommodations and in many other ways present to the traveler a list of attractions which Minnesota offers the world.

Neither the Western nor the Eastern routes which were bidding for the highway have any resentment nor does there appear any animosity toward that section awarded the road but since hearing the details of the proposition which must be entered into by the route selected, those in touch with the situation are patting themselves on the back that they were not wished into the deal. Instead it is thought the route projected by the Northern Minnesota Scenic Highway will become the nucleus for a highway which will be national in its scope while the State Highway Commission have gone on record favoring it being absolutely against anything but a split route. This point must be considered an important one by those behind the Jefferson Highway. State aid must be sought in the construction of the road.

This is much in the favor of the Scenic Highway and should the men behind the movement take steps for obtaining state aid, there can be but one answer. Northern Minnesota surely will receive its just reward and at a meeting of the Scenic Highway Association to be held at Detroit, August 4th one of the best attended and most enthusiastic meetings is looked forward to ever held in any section of the state with the same object in view. Letters are being sent to every town on the routes asking local boosters to turn out and make this the biggest movement of its kind ever started. Word comes already that every town will fall in line with a big delegation.

## OLD SETTLERS PICNIC AT OUTING

Annual Picnic to be Held Saturday, July 29—Many From Brainerd Will Attend Gathering

W. H. ANDREWS, President

Remer Band to Play, Ball Game Between Emily and Remer, Program of Sports, Etc.

The annual picnic of the old settlers will be held at Outing Saturday, July 29, and preparations are now under way. The presiding master of ceremonies will be W. H. Andrews. There will be a program of sports, dancing, music by the Remer band, baseball game between Emily and Remer, Emily defeating Remer 16 to 10 last Sunday.

Every year a large crowd attends the festivities. All the county officers make the trip regularly. It is 10 miles by road and the roads are good after you leave Merrifield. Big cars make it in two hours.

G. F. Rhodes, the Emily hotel-keeper, made it in two hours and a half in his Ford. Gasoline and a garage are at Emily so that car owners need have no fear.

## SPLENDID CROWD IN ATTENDANCE

C. A. Wortham Shows Do a Capacity Business on the First Night of the Carnival

### ENTERTAINING ATTRACTIONS

Mr. Wortham's Proud Boast That Ladies and Children Can Attend Without Male Escort

The C. A. Wortham show opened last night at the appointed time with a splendid crowd in attendance. In fact Mr. Wortham stated that with one exception that it was the biggest Monday night crowd that he has had this season. They came early and stayed late. It soon dawned upon them that at last a real carnival organization had come to town and they were not slow in showing their appreciation of this fact for they were more than liberal in their patronage of the different shows. Many were the advance promises for this show but even at this early date it will have to be admitted that they are in a fair way to keep every one of them. Decency first has always been the watch word with this show and the result is very apparent in every department for there is an absolute absence of those many things that were so offensive to the eye and ear. It is Mr. Wortham's proud boast that the ladies and the children can attend his shows without it being necessary for them to have a male escort. His carnival is one where pater familias can bring the entire family and not feel that he has brought them to the wrong place.

The big autrodrome was the first to open their door to the public and it was a pleasure to listen to the straight forward gentlemanly talk made by Mr. Coughlan, the man in charge of this attraction. He not only talked for his own show but for them all and among the many things that he said was that if you were to stop on your way out and get your money back and he meant it for you could pass any one of the shows as the crowds was coming out and you would find the man in charge inquiring of the people if they were satisfied and if they had liked the show. This was the rule and there were no exceptions. Now while they use motorcycles as well as automobiles at this show it is not a Motordrome but an Autrodrome, for the principal part of the show is given by Mile. Marie, the girl who dares. Her part of the entertainment alone is well worth all the money that you can spend at this show.

My Lady's Fan was the next to open. This show is presented entirely by ladies and it is known as the art show or the show beautiful, and it is properly named for it is beautiful beyond description. Five beautiful lady models with the aid of electricity reproduce many of the world's greatest paintings. Many of them are also taken from the Bible. During the action of the show the ladies change costumes not less than 40 different times. Each one is an imported creation and each one costs a small fortune. It is owned and operated by Miss Etta Louise Blake and is the same show that she used all last winter in the leading theatres throughout the country.

The big trained wild animal show which is the feature of the carnival was, as expected, crowded and packed to the doors from the time they first opened their doors until the close. It needed no coaxing to get the good people to go here for the moment that you stop in front of this show you know that you are at the right place at the right time and in you go.

Mr. Wilson, the man in charge of the Model City was giving away complimentary tickets for the first show to the ladies and when asked why he did this he replied that this was his way of placing his show before the public. He is satisfied in the belief that his attraction is so good that all he has to do is to get the crowd started on Monday night, then his business is assured for the week.

The big Wonderland shows were doing capacity business right from the start and it must be said that if you ever got your money's worth in your life you sure get it here.

Then you passed on to the show that is known as the Arabian Nights. The performers here are all from the Far East and it is here that you are confronted with all the splendor of the Orient. It is here that they feature the ten lady dancers from all nations. The stage settings of oriental tapestry are alone worth the price charged to see the show.

Then you pass on to the real novelty which is the Pike's Peak show. It is entirely new and is most unusual in the way of an attraction. First the front or entrance of the show is a reproduction of that far famed

mountain Pike's Peak. And on passing inside you are confronted by a western mining camp just as it used to look in the early days or in the days of '49. Nugget Nell operates a little novelty store while Widow Jones runs another and then there is the hotel operated by Alkali Ike, who also runs the dance hall. Here you find 22 ladies all decked out in western style and they are the entertainers.

The Panama Canal and the Submarine shows were going along nicely and it must be said that these are two of the best shows on the grounds and you will make the mistake of a lifetime if you don't avail yourself of the opportunity to see them.

The Athletic show was pleasing the crowds as was the Lady May show and the House That Jack Built was producing gales of laughter while at the Human Spider show you could always find a good crowd.

All shows open every afternoon at 2 o'clock and in the evening at 7:30. Band concerts on the streets twice daily, afternoon and evening.

### FUNERAL MONDAY

Mrs. Fanny Mulrine Laid to Rest in Evergreen Cemetery, Services Held in Morning

Funeral services over the remains of Mrs. Fanny Mulrine, of Merrian Park, St. Paul, held Monday morning were of the utmost simplicity, in response to her wishes. Short verses were read from the Bible by Rev. G. P. Sheridan, officiating minister. The casket was covered with flowers, tributes of love from her many friends.

The pallbearers were former Senator Charles D. Johnson, F. A. Farrar, Judge W. A. Fleming of Brainerd and C. C. Kyle of St. Paul. The cortege made its way from the home of F. A. Farrar, where the services were held, to Evergreen cemetery and in its broad, verdant, restful acres she was laid to rest.

### BRAINERD'S ODDEST STORIES TODAY

The right kind of a mother-in-law is a haven of refuge. "Jimmie" Templeton awoke at midnight and heard an alarm down in the cellar. He woke his wife. It was burglars, sure enough. Jim gathered up his wife and baby and they made a bee line to Mrs. John A. Cochran. After the excitement died down they returned home. Nothing was missing. The commotion the Templetons made had scared the burglars too and they had "beat it", dropping all their loot.

The carnival band under the direction of C. E. Jameson serenaded the Dispatch offices. They played rag time, classical and popular airs and the make up man just had to quit work as he couldn't control feet or hands when he heard the music.

After the carnival gets in swing, the concert band splits up in sections. One attraction falls heir to one cornet, one tuba and a bass drum. Its some orchestration when this aggregation plays a military march with lots of high tooting for the cornet and a bunch of after beats and snorts for the bass artillery. Awkard pauses are filled by the bass drum. An orchestra leader would tear his hair if he had to compose music for the trio. They get away their own arrangements and put it over all right.

A real "war baby" has been unearthed in Brainerd. Ed Friedman, traveling man, won a baby doll at the carnival at an investment of 20c. He sold it later for \$3, net profit \$2.80.

## Shepherd Writes From the Border

By WILLIAM G. SHEPHERD, United Press Staff Correspondent  
Brownsville, Tex., July 25—Militia from President Wilson's own home town was no more ready to go into Mexico than any other state militia along the border.

Colonel William J. Perry of the First Virginiana, whose home is in Stanton, spoke smilingly today in his tent of what he hoped would be sent him in the way of supplies. He has a machine gun company that is all ready to go into Mexico, except that it has no machine guns. He has twenty fine transport wagons ready for immediate use, the harness is in excellent shape, with buckles and everything but he has no horses.

Less than half his officers have mounts. The band which comes from the president's town has plenty of horns and drums, but the incinerator tins, which are used in destroying garbage, have not arrived.

"In a pinch, if we had to go into Mexico, officers could ride in Ford's," said Colonel Perry. "We could hitch our wagons behind motor trucks."

"How much time would you want to prepare your regiment to go into Mexico?" I asked.

"It would require two months."

The president's home regiment arrived with 917 men, but two of them were Indian graduates of Carlisle and were dismissed by Inspector of the regular army under the rule that they are not citizens but wards of the nation.

Except for these troubles, the regiment is in excellent shape.

## What it Cost on Mexican Border

(By United Press)

Washington, D. C., July 24—It is costing the U. S. \$10,000,000 a month to maintain its establishment on the Mexican border. Estimates were made today at the war department. Under ordinary conditions it takes \$310 a year to feed, clothe and pay a private, \$250 additional goes for ammunition, camp sites, water systems and incinerating plants. Maintenance of the hospital corps is estimated to cost at least \$50 a man. The national guard concentration is costing the government millions in fares and incidental expenses. No estimate of this cost is yet available. Hundreds of motor trucks purchased for the Mexican expedition are charged to extraordinary expenses. While huge expenditures have been made for machine guns, aeroplanes and small calibre guns, this is not being charged to the upkeep of the army. These things the war department figures will add to the permanent strength of the organization.

## WOMAN RECALLS GIRLHOOD DAYS

Says She Feels Young Again Since Taking Tanlac

PAYS GLOWING TRIBUTE

"I Can't Praise This Medicine too Highly," Carpenter's Wife Frankly Asserts—Declares Improvement Noticeable in Every Respect

Minneapolis, Minn., July 25—"I feel like a girl again since taking Tanlac," Mrs. H. A. Gordon, wife of a carpenter of 3301 Fortieth avenue, south, said recently.

"I had stomach trouble," Mrs. Gordon stated on June 19. "My health was broken down generally. I was troubled with sour stomach, my digestion was poor and I had no appetite. Gas formations bothered me after eating, causing me to feel bloated. I was very nervous."

"I'm just like a woman made over again since taking four bottles of Tanlac. The indigestion no longer bothers me. I eat heartily and thoroughly enjoy my meals. I'm gaining strength rapidly and my nerves are in fine condition. I can't praise Tanlac too highly for it has made me feel young again."

Tanlac, the Master Medicine, is especially beneficial for stomach, liver and kidney trouble, catarrhal complaints, rheumatism, nervousness, sleeplessness, loss of appetite and the like.

Tanlac is now being specially introduced and explained in Brainerd at Johnson's Pharmacy.

## Belgium Army Ready for Miniature Verdun

(By United Press)

London, July 24—Belgian troops are ready for a miniature battle of Verdun on their own front, if the fortunes of war bring it to them. Visitors to the Belgian front are few but King Albert did not object to Sir Charles Wakefield, the Lord Mayor of London, looking over the Belgian lines.

Out-door life, "roughing it," fresh air and hardships have done to the Belgian soldiers what they have done to all other men in Europe; converted them into marvels of strength and health. "In 1913 I was present at the Belgian maneuvers," says the Lord, "but since then the Belgian troops seem to have developed physically. They're bigger and stronger than the Belgian soldiers of 1913. And they are equipped and ready for whatever comes."

## Jefferson Highway Members go Fishing

(By United Press)

St. Paul, Minn., July 24—After members of the Jefferson highway sociability tour had visited St. Paul over Sunday, they started back today to St. Joseph, Mo. The return trip will not be made as a unit, several members of the show me aggregation planning to catch some of the fish from Minnesota's 10,000 lakes before returning to their sweltering home towns.

## WHAT ROUSED CUYUNA'S IRE

Writeup in Crosby Courier Scored Alleged "Raw" Work of Cuyuna Umpire

The scoring handed the Cuyuna umpire who officiated at the Crosby-Aitkin game in Crosby is reproduced herewith:

(Crosby Courier)

CROSBY 4; AITKIN 5  
Aitkin with nine fairly good players and one bum umpire from Cuyuna annexed the game Sunday by a score of 5 to 4. The locals missed scoring four times thru the raw work of this Mr. Ump. Once with a man on third and another on second, E. Lovdahl hit a beauty down the third base line and over the center of the third base sack. Mr. Umpa from Cuyuna got his lamps twisted and called it a foul. In the ninth, after calling Krueger safe at second he reversed his decision and called him out. These were his two worst offenses, but, really, he was so punk that he was good. Still, the fans should not have carried their grievance after the game as it was plainly evident that this Mr. Ump did not know the first thing about the game. Some are mean enuf to say, tho, that this Mr. Ump wanted to "see Crosby skinned." It might be well to ask here that when Crosby furnishes as square and impartial an umpire as Tate Siebenhal who cannot some of the teams that visit our city use a little judgment in their selection and thus do away with the "rag chewing." Aitkin and Crosby each have won a game apiece from the other and the third contest is awaited with interest. The Aitkin boys all proved to be gentlemen, but, for goodness sake, some one put them wise that they are weak when they come to choosing an umpire.

## Welsh in Training

New York July 25—Freddie Welsh is training hard today for his battle with Bennie Leonard Friday night. The champion claims to have the greatest respect for his youthful challenger and is down at Douglass, L. I., making up for the brief spell in training he took after his bout with Charley White was called off.

## SAY WALSH REFUSED SEAT

Friends Assert Senator Prefers Present Position.

Butte, Mont., July 25—Intimate friends here declare that Senator T. J. Walsh of Montana refused a seat in the supreme court to remain in the senate, of which he may assume the leadership in the next congress.

President Wilson was known to be considering Mr. Walsh for the seat left vacant by the resignation of Justice Hughes and hundreds of telegrams endorsing Walsh reached the White House.

His term as senator has two years to run.

## SORRY HE CAN'T END WAR

Pope Expresses Regret European Conflict Continues.

Rome, July 25.—Pope Benedict received members of the Sacred college who presented their greetings on the eve of the pontiff's nameday.

The pope recalled all he had done to alleviate the horrors of the war and to hasten the end of the conflict.

He expressed regret that neither he nor others who were working for the same end had yet been able to induce the belligerents to negotiate for peace.

## MORE PEP NEEDED IN THE CAMPAIGN

Too Much Time Consumed in Getting Under Way.

## EXCITEMENT MAY YET COME

Roosevelt Republicans Believe That Had the Colonel Been Nominated He Would Have Kept Things Stirred Up Continuously—Some Wanted Peace and Militancy to Be Chief Issues.

By ARTHUR W. DUNN.

Washington, July 22.—[Special.]—Republicans have become somewhat uneasy and fear that the national campaign has been lagging; that too much time has been consumed in getting under way; that it will require a great deal of hard work to bring the situation up to the point of high tide that was experienced when Mr. Hughes sent his long message to Chairman Harding the day the convention concluded its business.

Among Roosevelt Republicans—and there were many of them in the country—there is a feeling that there has not been enough "pep" injected into the campaign. They are saying that a mistake was made in not nominating Roosevelt, for he would have kept everything on the jump from the beginning.

At the same time there is considerable hope that Mr. Hughes will give the country something to talk about when he goes on his first political tour of the country.

Peace and Militancy.

According to some of the dissatisfied men, mostly of progressive tendencies, it is asserted that the present campaign should have been fought on the issue of peace and militancy—that is, there should have been a clear cut issue between the parties, and one side should have been for peace and the other for strong military progressiveness.

At Chicago there was a fear expressed that the nomination of Roosevelt would have made the Republican party a war party, and in view of the anti-war feeling so plainly apparent it was believed that Roosevelt's nomination would have been unwise. Now some of the Republicans are wondering whether a strong militant campaign would not have aroused the country as nothing else would have done and perhaps made success with Roosevelt possible.

Wilson a Peace Man.

There is no doubt that the Democrats expect to win on the slogan that "Wilson has kept us out of war." Commenting on that political turn of affairs, a Republican remarked: "Wilson has spent \$500,000,000 for war and is to be elected as a peace man."

He was referring to the expenditures of military purposes by the present congress, which was urged by the president.

More Than a Cog in the Machine.

When James Hay was nominated for the court of claims some one remarked that he was one of the important cogs in the famous Virginia machine. Hay is much more than a cog. He is at least one of the main wheels. This great political organization is excelled by no other in politics. It is so strong that it controls Virginia, and the success of its managers in every campaign is proverbial. The senators, Martin and Swanson, with Hal Flood, Jim Hay, Charley Carlin, with a few others, are the main works. There are some strong powers in the background, but those named are the men who are most prominent.

For Rural Health.

In a strong argument for rural sanitation and urging an appropriation of \$500,000 for the investigation of the best methods to protect the health of the people of the country Senator Ransdell of Louisiana pointed out that this congress would appropriate more than \$680,000,000 for military protection. It shows that the war scare has had a wonderful effect.

Uncle Joe Wanted to Know.

During the consideration of the campaign - publicity - anti - corrupt - practices bill former Speaker Cannon made this inquiry of Chairman Rucker:

"Does your bill make it any harder to commit perjury?"

"More difficult to commit perjury" repeated Rucker in some bewilderment.

"That is a stunner," remarked Stafford of Wisconsin.

"I confess it is a stunner," replied Rucker.

Then Cannon explained that he wanted to know whether the bill made conviction more easy and whether it restricted the easy going methods by which men often committed perjury in connection with elections and registration of voters.

Twenty-five Stations.

Senator Weeks called attention during the consideration of the naval bill to the fact that the United States maintained twenty-five navy yards and navy stations. He went on to explain that they were expensive and that many of them might be abandoned in the interest of the service. Not a single yard or station was abandoned. On the contrary, increases were made for maintaining and improving most of them.

## ARMY FOOD BETTER THAN HOME COOKED

Washington, July 25.—The full report of Major General Tasker H. Bliss, assistant chief of staff, on his inspection of national guardsmen in the Brownsville district, made public at the war department, says that, in an inspection of all camps and more than 30,000 men, reports of inefficiency and bad rations were found to be wholly false.

Many of the guardsmen, General Bliss reported, said their rations were better than the food they were accustomed to having at home.

"I have personally visited all the camps, approximately 30,000 men, and have interviewed company, regimental, brigade and division commanders," General Bliss reported.

"Without exception they have denounced every story that has appeared in the newspapers as to insufficiency or poor quality of the rations as a deliberate falsehood. The only ground for criticism (and that is being rapidly remedied) is that in the first few days of the camps they have not had the variety in the components of the ration that was desired. The matter was never a cause of real complaint."

## "ANURIC!" THE NEWEST DISCOVERY IN CHEMISTRY

This is a recent discovery of Doctor Pierce, who is head of the Invalids' Hotel and Surgical Institute at Buffalo, N. Y. Experiments at Doctor Pierce's Hospital for several years proved that there is no other eliminator of uric acid that can be compared to it. For those easily recognized symptoms of inflammation—as backache, scalding urine and frequent urination, as well as sediment in the urine, or if uric acid in the blood has caused rheumatism, it is simply wonderful how surely "Anuric" acts. The best of results are always obtained in cases of acute rheumatism in the joints, in gravel and gout, and invariably the pains and stiffness which so frequently and persistently accompany the disease rapidly disappear.

Go to your nearest drug store and simply ask for a 50-cent package of "Anuric" manufactured by Dr. Pierce, or even write Doctor Pierce for a free sample. If you suspect kidney or bladder trouble, send him a sample of your water and describe symptoms. Doctor Pierce's chemist will examine it, then Dr. Pierce will report to you, without fee or charge.

NOTE:—French scientists affirm that "Anuric" is thirty-seven times more active than lithia in eliminating uric acid, and is a harmless but reliable chemical compound that may be safely given to children, but should be used only by grown-ups who actually wish to restore their kidneys to perfect health, by conscientiously using one box—or more in extreme cases—as "Anuric" (thanks to Doctor Pierce's achievement) is by far the most perfect kidney and bladder corrector obtainable.

Dr. Pierce's Pellets are the original Little Liver Pills. One Little Pellet for a laxative—three for a cathartic.

## Shepherd Writes From the Border

By WILLIAM G. SHEPHERD, United Press Staff Correspondent

Brownsville, Tex., July 25.—Militia from President Wilson's own home town was no more ready to go into Mexico than any other state militia along the border.

Colonel William J. Perry of the First Virginiana, whose home is in Stanton, spoke smilingly today in his tent of what he hoped would be sent him in the way of supplies. He has a machine gun company that is all ready to go into Mexico, except that it has no machine guns. He has twenty fine transport wagons ready for immediate use, the harness is in excellent shape, with buckles and everything but he has no horses.

Less than half his officers have mounts. The band which comes from the president's town has plenty of horns and drums, but the incinerator tins, which are used in destroying garbage, have not arrived.

"In a pinch, if we had to go into Mexico, officers could ride in Ford's," said Colonel Perry. "We could hitch our wagons behind motor trucks."

"How much time would you want to prepare your regiment to go into Mexico?" I asked.

"It would require two months."

The president's home regiment arrived with 917 men, but two of them were Indian graduates of Carlisle and were dismissed by Inspector of the regular army under the rule that they are not citizens but wards of the nation.

Except for these troubles, the regiment is in excellent shape.

## Belgium Army Ready for Miniature Verdun

(By United Press)

London, July 24.—Belgian troops are ready for a miniature battle of Verdun on their own front, if the fortunes of war bring it to them. Visitors to the Belgian front are few but King Albert did not object to Sir Charles Wakefield, the Lord Mayor of London, looking over the Belgian lines.

Out-door life, "roughing it," fresh air and hardships have done to the Belgian soldiers what they have done to all other men in Europe; converted them into marvels of strength and health. "In 1913 I was present at the Belgian maneuvers," says the Lord, "but since then the Belgian troops seem to have developed physically. They're bigger and stronger than the Belgian soldiers of 1913. And they are equipped and ready for whatever comes."

This is a recent discovery of Doctor Pierce, who is head of the Invalids' Hotel and Surgical Institute at Buffalo, N. Y. Experiments at Doctor Pierce's Hospital for several years proved that there is no other eliminator of uric acid that can be compared to it. For those easily recognized symptoms of inflammation—as bacache, scalding urine and frequent urination, as well as sediment in the urine, or if uric acid in the blood has caused rheumatism, it is simply wonderful how surely "Anuric" acts. The best of results are always obtained in cases of acute rheumatism in the joints, in gravel and gout, and invariably the pains and stiffness which so frequently and persistently accompany the disease rapidly disappear.

Go to your nearest drug store and simply ask for a 50-cent package of "Anuric," manufactured by Dr. Pierce, or even write Doctor Pierce for a free sample. If you suspect kidney or bladder trouble, send him a sample of your water and describe symptoms. Doctor Pierce's chemist will examine it, then Dr. Pierce will report to you, without fee or charge.

**NOTE:**—French scientists affirm that "Anuric" is thirty-seven times more active than lithia in eliminating uric acid, and is a harmless but reliable chemical compound that may be safely given to children, but should be used only by grown-ups who actually wish to restore their kidneys to perfect health, by conscientiously using one box—or more in extreme cases—as "Anuric" (thanks to Doctor Pierce's achievement) is by far the most perfect kidney and bladder corrector obtainable.

Dr. Pierce's Pellets are the original little Liver Pills. One little Pellet for a laxative—three for a cathartic.

THE CONVALESCENT APPEALS TO THE GOOD JUDGE.

YES, YOU MAY HAVE A LITTLE GOOD TOBACCO.

HEAR THAT JUDGE? GOOD TOBACCO MEANS W-B CUT—THE REAL TOBACCO CHEW—THE SMALL CHEW THAT LASTS AND SATISFIES. HELP ME OUT.

CERTAINLY WHEN A MAN USES W-B NOTHING ELSE TASTES AS GOOD.

**WHEN the tobacco satisfaction in W-B CUT Chewing makes you all smiles inside and outside, how can you keep from helping out a less fortunate brother? It's rich tobacco, chuck full of satisfaction—and the salt keeps bringing it out without so much grinding and spitting. You need only half-sized chews.**

A 10c pouch lasts twice as long as a 20c pouch of ordinary chewing—and dealers who want satisfied customers have it.
